GOLDPANORAMA
ALUMINIUM PANORAMA WINDOW SYSTEMS

Panoramic Serenity

GoldPanorama is an advanced window system featuring an inverted guillotine mechanism, where the glass panels move smoothly from bottom to top with the help of a motor.

This innovative motion creates a modern, functional, and highly aesthetic window solution for both residential and commercial spaces.

With its slim profiles and expansive glass surfaces, ***GoldPanorama*** offers a maximum panoramic view, allowing you to enjoy the scenery without visual interruption. This brings exceptional comfort to homes, cafés, restaurants, hotels, and many other architectural settings.

Each ***GoldPanorama*** system is custom-built to the exact dimensions you require and delivered in a fully modular, installation-ready form. Its specially designed packaging ensures safe and secure transportation.

While offering strong protection against wind and harsh weather, the system preserves the existing indoor climate without disrupting temperature balance.

This provides comfortable, safe, and aesthetic usability in all seasons, both in summer and winter.

AluGarden Outdoor Systems

Uninterrupted View Outstanding Clarity

GoldPanorama systems are typically equipped with double glazing, helping keep your space warm in winter and cool in summer, while significantly reducing outdoor noise.

The use of tempered glass provides durability and safety against impacts and accidents.

The system can be opened or closed effortlessly with a single button on the remote control, and can be integrated into smart home systems upon request.

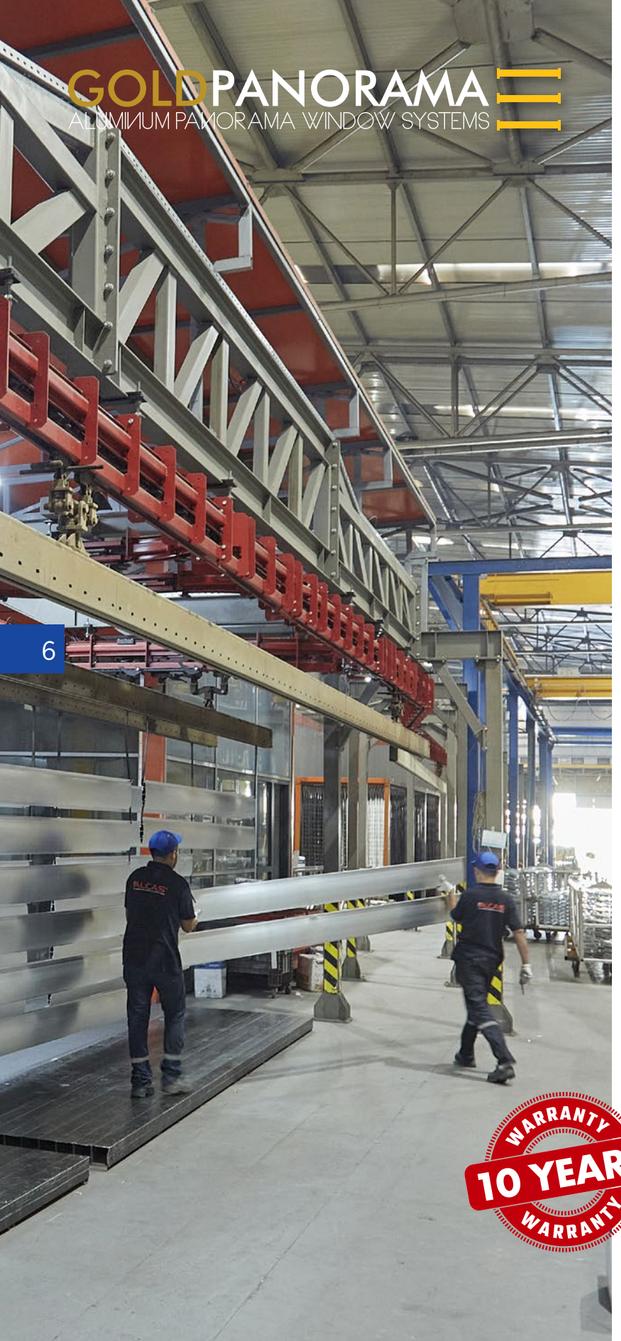

Since it operates vertically, ***GoldPanorama*** requires no inward or outward swing space, making it ideal for small terraces, narrow balconies, and compact areas.

Even when partially open, it allows fresh air inside while preventing direct wind flow.

GoldPanorama adds a modern architectural touch to any setting, providing a prestigious and elegant appearance for both homes and businesses.

It offers effective protection against rain, snow, dust, and pollen, and when fully closed, it transforms your area into a cozy winter room or winter garden.

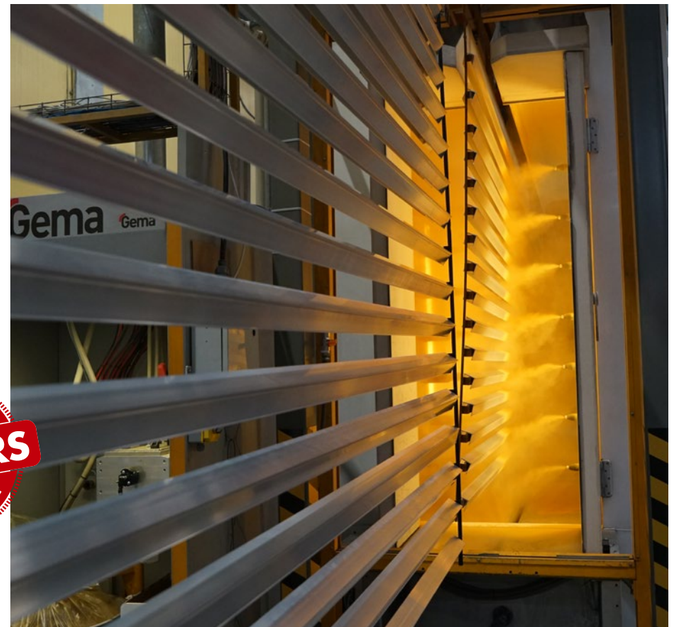

Long-lasting Protection

AAMA 2604 Super Durable Sublamation Base Coatings

GoldPanorama is coated with a unique AAMA 2604 (Class 2) electrostatic primer at the Alcas Surface Treatment Facility, our in-house, state-of-the-art painting line.

This premium primer is applied using premium Akzo Nobel and Jotun coatings, fully compliant with Qualicoat standards, providing a flawless base for the wood profiles.

Backed by a 10-year warranty, the coating ensures enduring protection against sunlight, rain, snow, and wind, keeping your GoldPanorama looking beautiful for years.

Wood Grain Effect Color Chart

*Son renk seçiminizi yaparken, ekranda veya basılı materyallerde görünen renkleri esas almayınız. Gerçek renk ve doku seçimi, uygulayıcının proje için kullanacağı aynı araçlar, teknikler ve malzemelerle ürettiği numune üzerinden yapılmalıdır.

Wood Grain Effect Colors

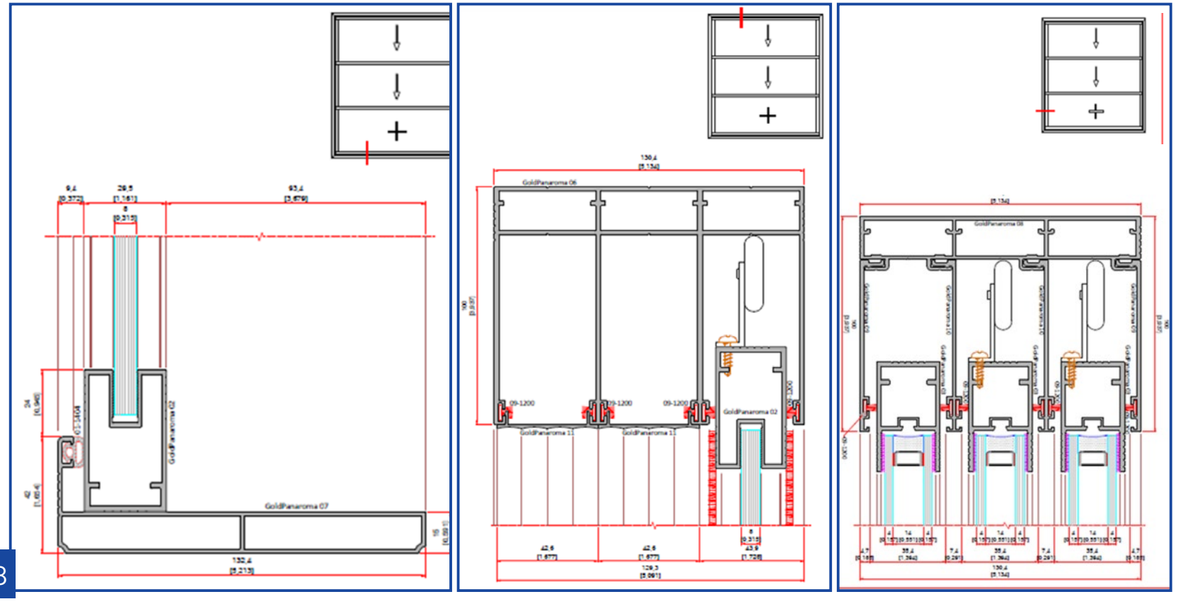

GoldPanorama profiles are finished with a high-quality wood-effect film applied over the durable AAMA 2604 (Class 2) base coating at our in-house Alcas Surface Treatment Facility.

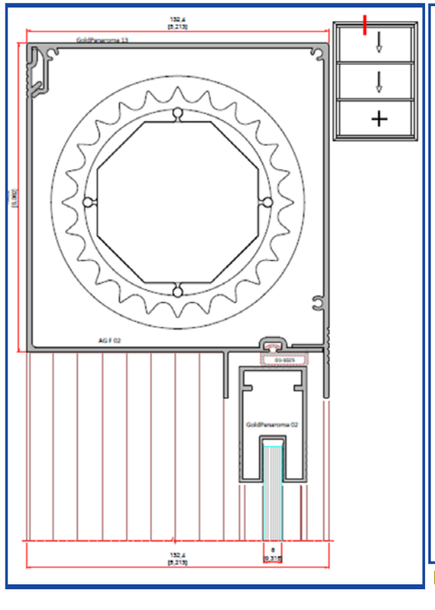

Using premium Italian-made film rolls engineered to withstand all climate conditions, this process ensures lasting beauty and durability, backed by a 10-year warranty.

GOLDPANORAMA
ALUMINUM PANORAMA WINDOW SYSTEMS

Assemble Easily *or* Build It Yourself

GoldPanorama combines the natural warmth of wood with the long-lasting durability of aluminum, offering an elegant and maintenance-free solution that preserves its beauty for years.

Its refined, modern design enhances every garden or balcony, while its maintenance-free structure ensures lasting performance.

With a wide range of color options, ***GoldPanorama*** integrates seamlessly into any landscape or architectural concept.

Its rust-proof, rot-proof, and UV-resistant structure guarantees reliable protection and long-term durability.

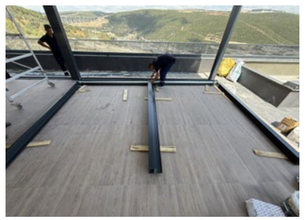

You can order ***GoldPanorama*** custom-made to your measurements and receive it in a demountable, ready-to-install package.

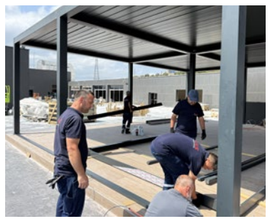

Alternatively, you can purchase standard 5650 mm (222.44") profiles and compatible accessories, cut them to your measurements, and assemble the system yourself, saving both time and cost.
